In the Matter of)
Classic Communications, Inc.) File No. EB-02-TS-123
Operator of Cable Systems in the States of)
Arkansas, Colorado, Kansas, Louisiana, Missouri, Nebraska, New Mexico, Ohio, Oklahoma, Texas)))
Request for Waiver of Section 11.11(a) of the Commission's Rules)

ORDER

Adopted: October 1, 2002

Released: October 7, 2002

By the Chief, Technical and Public Safety Division, Enforcement Bureau:

- 1. In this *Order*, we grant Classic Communications, Inc. ("Classic") temporary waivers of Section 11.11(a) of the Commission's Rules ("Rules") for 559 cable television systems in the ten above-captioned states. Specifically, we grant temporary, 18-month waivers of Section 11.11(a) for 11 cable television systems in Attachment A, temporary, 24-month waivers of Section 11.11(a) for 65 cable television systems in Attachment A, and temporary, 36-month waivers of Section 11.11(a) for 483 cable television systems in Attachment A. Section 11.11(a) requires cable systems serving fewer than 5,000 subscribers from a headend to either provide national level Emergency Alert System ("EAS") messages on all programmed channels or install EAS equipment and provide a video interrupt and audio alert on all programmed channels and EAS audio and video messages on at least one programmed channel by October 1, 2002.¹
- 2. The Cable Act of 1992 added new Section 624(g) to the Communications Act of 1934 ("Act"), which requires that cable systems be capable of providing EAS alerts to their subscribers.² In 1994, the Commission adopted rules requiring cable systems to participate in EAS.³ In 1997, the

¹ 47 C.F.R. § 11.11(a).

² Cable Television Consumer Protection and Competition Act of 1992, Pub. L. No. 102-385, § 16(b), 106 Stat. 1460, 1490 (1992). Section 624(g) provides that "each cable operator shall comply with such standards as the Commission shall prescribe to ensure that viewers of video programming on cable systems are afforded the same emergency information as is afforded by the emergency broadcasting system pursuant to Commission regulations" 47 U.S.C. § 544(g).

³ Amendment of Part 73, Subpart G, of the Commission's Rules Regarding the Emergency Broadcast System, Report and Order and Further Notice of Proposed Rule Making, FO Docket Nos. 91-171/91-301, 10 FCC Rcd 1786 (1994) ("First Report and Order"), reconsideration granted in part, denied in part, 10 FCC Rcd 11494 (1995).

Commission amended the EAS rules to provide financial relief for small cable systems.⁴ Commission declined to exempt small cable systems from the EAS requirements, concluding that such an exemption would be inconsistent with the statutory mandate of Section 624(g).⁵ However, the Commission extended the deadline for cable systems serving fewer than 10,000 subscribers to begin complying with the EAS rules to October 1, 2002, and provided cable systems serving fewer than 5,000 subscribers the option of either providing national level EAS messages on all programmed channels or installing EAS equipment and providing a video interrupt and audio alert on all programmed channels and EAS audio and video messages on at least one programmed channel.⁶ In addition, the Commission stated that it would grant waivers of the EAS rules to small cable systems on a case-by-case basis upon a showing of financial hardship.⁷ The Commission indicated that waiver requests must contain at least the following information: (1) justification for the waiver, with reference to the particular rule sections for which a waiver is sought; (2) information about the financial status of the requesting entity, such as a balance sheet and income statement for the two previous years (audited, if possible); (3) the number of other entities that serve the requesting entity's coverage area and that have or are expected to install EAS equipment; and (4) the likelihood (such as proximity or frequency) of hazardous risks to the requesting entity's audience.8

3. On March 26, 2002, Classic filed a request for a permanent waiver or a temporary, five-year waiver of Section 11.11(a) for 569 small rural cable systems in the ten captioned states. On July 18, 2002, Classic filed an amendment to its waiver request which changed the number of cable system headends to 559. Classic states that each of these systems serves less than 5,000 subscribers. In particular, Classic indicates that 11 cable systems serve between 3019 and 4504 subscribers, 65 cable systems serve between 1,004 and 2,671 subscribers, and 483 cable systems serve between eight and 985 subscribers. In support of its waiver request, Classic submits financial statements for 1999, 2000 and 2001 and states that it is currently operating as debtor-in-possession under supervision of the Bankruptcy Court. Based on price quotes provided by EAS equipment manufacturers, Classic estimates that it would cost approximately \$8,430 per headend, for a total of over \$4,754,000 to install EAS equipment at the 559 systems. In addition, Classic submits that its subscribers will continue to have ready access to national EAS information from other sources, including its cable systems. In this regard, Classic notes that its subscribers currently have access to national EAS messages on a substantial number of all programmed channels. Classic also asserts that its subscribers will have access to EAS information through over-theair reception of broadcast television and radio stations.

⁴ Amendment of Part 73, Subpart G, of the Commission's Rules Regarding the Emergency Broadcast System, Second Report and Order, FO Docket Nos. 91-171/91-301, 12 FCC Rcd 15503 (1997) ("Second Report and Order").

⁵ *Id.* at 15512-13.

⁶ *Id.* at 15516-15518.

⁷ *Id.* at 15513.

⁸ *Id.* at 15513, n. 59.

⁹ On November 13, 2001, Classic Communications, Inc. filed for Chapter 11 bankruptcy with the United States Bankruptcy Court, the District of Delaware.

- 4. Based upon our review of the financial data and other information submitted by Classic, we decline to grant Classic a permanent waiver of Section 11.11(a). Also, we decline to grant Classic a temporary, five-year waiver of Section 11.11(a). However, the estimated cost of over \$4,754,000 to install EAS equipment at the 559 cable systems could impose a financial hardship on Classic. Therefore, we conclude that temporary, 18-month waivers of Section 11.11(a) for 11 of the cable television systems in Attachment A are warranted, that temporary, 24-month waivers of Section 11.11(a) for 65 of the cable television systems in Attachment A are warranted, and that temporary, 36-month waivers of Section 11.11(a) for 483 of the cable television systems in Attachment A are warranted. ¹⁰
- 5. We note that the Commission recently amended the EAS rules to permit cable systems serving fewer than 5,000 subscribers to install FCC-certified decoder-only units, rather than both encoders and decoders, if such a device becomes available. Based on comments from equipment manufacturers, we anticipate that such a decoder-only system could result in significant cost savings to small cable systems. 12
- 6. Accordingly, **IT IS ORDERED** that, pursuant to Sections 0.111, 0.204(b) and 0.311 of the Rules, Classic Communications, Inc. **IS GRANTED** a waiver of Section 11.11(a) of the Rules until April 1, 2004 for 11 cable television systems listed in Attachment A, **IS GRANTED** a waiver of Section 11.11(a) of the Rules until October 1, 2004 for 65 cable television systems listed in Attachment A, and **IS GRANTED** a waiver of Section 11.11(a) of the Rules until October 1, 2005 for 483 cable systems listed in Attachment A.
- 7. **IT IS FURTHER ORDERED** that Classic Communications, Inc. place a copy of this waiver in its system files.
- 8. **IT IS FURTHER ORDERED** that a copy of this *Order* shall be sent by Certified Mail Return Receipt Requested to counsel for Classic Communications, Inc. Robert L. James, Esq., Raywid & Braverman, LLP, 1919 Pennsylvania Avenue, NW, Suite 200, Washington, DC 20006.

FEDERAL COMMUNICATIONS COMMISSION

Joseph P. Casey Chief, Technical and Public Safety Division

3

¹⁰ The 18-month waivers will extend from October 1, 2002 until April 1, 2004. The 24-month waivers will extend from October 1, 2002 until October 1, 2004, and the 36-month waivers will extend from October 1, 2002, until October 1, 2005. We clarify that the waivers we are granting also encompass the EAS testing and monitoring requirements.

¹¹ Amendment of Part 11 of the Commission's Rules Regarding the Emergency Alert System, EB Docket 01-66, FCC 02-64 at ¶ 71 (released February 26, 2002).

 $^{^{12}}$ One manufacturer estimated that an EAS decoder-only system can reduce the cost by 64% over what a cable operator would spend for an encoder/decoder unit. *Id.* at ¶ 70.
